Home & School Connection: Working Together for School Success
A small note from Principal Renee Montague

Did you know? Cityview is a Turnaround Arts School!

We are beginning our third year as a Turnaround Arts school! The aim of Turnaround Arts is to empower schools with proven arts strategies to improve student achievement. These strategies include innovative art, dance, theater, media arts, and music programs, arts integration across subject areas, arts resources, and high-profile artist mentors.

Arts education has been shown through numerous studies to be an important part of education as a whole and able to give students tools for success. Decades of research show that arts-engaged students perform better than their peers! Keep an eye out for future whole-school events and classroom events that will highlight this great focus of our school!
